Secured email communication with cloud-based sandboxing

eset PROTECT MAIL PLUS

Man Marine Marin

-

- Cloud-based Console
- Mail Security
- Cloud Sandbox

Protect your users and their email, the most exploited threat vector. ESET Mail Security solutions make users' life much easier by preventing spam from ever reaching their mailbox. The solution includes cloud sandboxing technology, preventing zero-day threats, and ransomware. Security products are all managed via a cloud-based management console.

- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Protection against disruption caused by email-based attacks and malware.
- Easily accessible ESET PROTECT console improves the TCO of security management.
- Single-pane-of-glass remote management for visibility of threats, users and quarantined items.

IMPROVED RANSOMWARE PROTECTION AND ZERO-DAY ATTACKS SOLUTION WITH CLOUD SANDBOXING

ESET Dynamic Threat Defense provides proactive protection against zero-day threats by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment. It evaluates their behavior using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.Setup and deployment within minutes

- Behavior-based Detection
- Machine Learning
- Zero-day Threats Detection

LIMIT THE ORGANIZATION'S EXPOSURE TO EMAIL-BASED ATTACKS

ESET Mail Security provides an additional layer of defense to prevent spam and malware from ever reaching users' mailboxes. The solution uses ESET's proprietary antispam, anti-phishing and host server protection technology, combining machine learning, big data and human expertise into one, award-winning mail security platform.

- Robust quarantine management
- Multilayered technology filtering spam and malware
- Anti-phishing protection

CLOUD-BASED REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and gives you network visibility without the need to buy or maintain additional hardware, reducing the total cost of ownership.

- Setup and deployment within minutes
- No need for additional hardware or software
- Single point of network security management
- Accessible safely via web browser from anywher
